DIVISION OF
OIL GAS & MINING

Dear Mr. Dobson:

Thank you for meeting with Phil Allard of my staff on March 12, 1991 concerning your mining and reclamation plan. At this meeting you shared the notes you prepared on your reclamation plan on March 1, 1989. These notes help to answer many of the questions we had regarding the origin of the \$179,000 bond amount. It is my understanding that none of the bond is to cover possible disturbance at the area described as the Northwest Quarry in your 1981 Plan of Operations submittal. Permitting and bonding of the Northwest Quarry will be required before you begin to mine this area.

In your reclamation plan, fewer acres will be reclaimed than will be disturbed because of the variance granted by the State, with which the BLM has concurred, on the reclamation of the highwalls in the quarry. In order to verify the acreage which will be reclaimed, please send us a map showing the ultimate boundaries of the quarry and the areas which will be reclaimed. Please use a scale of at least 1 inch equals 300 feet. We will use this map to verify your reclamation bond and as a base for any future discussion of your reclamation plan or activities.

Should you have any questions regarding this letter, please feel free to call Phil Allard at (801) 743-6811.

Sincerely,

Dave Henderson
Area Manger
